

**UNDP,  
DELEGATE OF ALGERIA, POSITION PAPER**

**COMMITTEE: UNDP**

**TOPIC: ACHIEVING SUSTAINABLE DEVELOPMENT  
GOALS 8 AND 9**

**COUNTRY: ALGERIA**

**ABOUT OUR COUNTRY:** Algeria, officially the **People's Democratic Republic of Algeria**, is a country in North Africa. Algeria is bordered to the northeast by Tunisia; to the east by Libya; to the southeast by Niger; It has a semi-arid geography, with most of the population living in the fertile north and the Sahara dominating the geography of the south. Algeria covers an area of 2,381,741 square kilometres (919,595 sq mi), making it the world's tenth largest nation by area, and the largest nation in Africa. Algeria, which has dark traces in terms of history, is also on the agenda with genocide issues.

**OUR COUNTRIES POLICY ON THE MATTER:**

Development goals are and have always been important in both national international grounds. The idea of sustainability peaked nowadays that leads to join sustainability with development and create new idea which contains both of these notions as well as technology and industrial innovations.

As the delegation of Algeria has been coming through with flying colors. that the Pandemic was delay our 2030 goals and development projects but we know that what does not kill our ideas makes us stronger. We want to find the solution of the inclusive and sustainable economic growth, employment Our country and UN's foundations are going to repair the economical problems. Government legislation, regulation and policy already drives us toward many of the environmental, social and economic outcomes enshrined in the SDG's. Our economic succes is downswing in these days so we build our order like a resilient infrastructure

**OUR SOLITION IDEAS:**

We aim to achieve a great deal of success in needs and exports with agreements and support packages that are jointly decided to solve the problems in infrastructure, economy and business that are increasing day by day. We have common problems with the countries in Africa, first of all, there is sufficient social and economic infrastructure. We carry out ideas for such problems to give good results within the scope of collective solidarity initiatives and the United Nations goals and programs.
