**SOUTH AFRICA DELEGATE – LEGAL COMMITEE**

**Topic: Development of International Legal Frameworks for the use of AI**

Honorable Chair, Fellow Delegates, and  Esteemed  Guest,

South Africa acknowledges that the rapid development of AI presents both significant opportunities and challenges, particularly in the areas of ethic, security, and human rights. We belive that the development of international legal frameworks to ensure the responsible and equitable use of AI is essential.

**AI and International Law**

AI introduces challenges such as data privacy, discrimination, and security corners. South Africa emphasizes that AI must be developed in aligment with human rights and equalitiy principles, and we advocate for he United Nations to establish international regulations to adress these issues.

**South Africa's proposals:**

1.  **International Legal Framework:** Universal standarts should be developed to ensure the ethical use of AI
2.  **Trasparency and Governance:** Mechanisms based on transparency shoul be established to prevent bias in AI decision-making processes.
3.  **Data Security:** AI applications must secure personal data and ensure its protection.
4.  **Education and Capacity Building:** Education programs should be launched parculairly in developing countries, to help stakeholders use AI Technologies responsibly.
5.  **İnternational Cooperation:** Cooperation among states should be strengthened to ensure the safe and ethical use of AI worldwide.

**Conclusion:**

South Africa advocates fort he establishment of strong international legal frameworks to ensure the global, ethical, and responsible use of AI. These frameworks should allow all countries to equally benefit from AI's potentials.

**Respectfully,**

**South Africa Delegate**
