**Committee: UNHCR (United Nations Human Rights Council)**

**Country: Indonesia**

**Delegate: Alim Emre Özen**

**Agenda item: Ensuring Equal Rights For Persons With Disabilities In Education And Social Life**

**(United Nations)**

**Indonesia- The Republic of Indonesia, Indonesia is a country that is located in Southeast Asia. Its territories stand between the Indian and Pacific Oceans. The largest of them are Sumatra, Java, and Sulawesi, and they are also in Borneo and New Guinea. Indonesia is the largest archipelago country in the world and is ranked 14th of 1,904,569 km<sup>2</sup> worldwide. With the number of people numbering some 280 million, it is a country with the fourth-largest population and is in fact the most Muslim country. It is chiefly populated by the Javanese who are the most densely populated people in the world on their island. The rest of the population resides on this island**

**Indonesia has made efforts both nationally and internationally to protect and enhance the rights of people with disabilities. However, greater progress is needed in improving infrastructure, implementing policies effectively, and raising public awareness to ensure they can fully participate in education and social life**

**Also On December 3rd, the International Day of Persons with Disabilities, TIKA took action to make life easier for 100 individuals with disabilities in Indonesia. Additionally, the closing meeting of the "Incheon Strategy to Make the Rights Real for Persons with Disabilities in the Asia-Pacific Region (2013-2022)," which aims to protect the rights of people with disabilities and build inclusive societies, took place in October 2022 in Jakarta, the capital of Indonesia.**

**In conclusion, Indonesia has implemented legal measures and hosted international strategies to ensure that people with disabilities have equal rights in education and social life. However, more effort is needed to overcome the challenges faced in practice.**
