

# Republic of Peru

**Country: Republic of Peru**

**Committee: DISEC**

**Topic: Russia-Ukraine War**

Peru believes in peace, respect for sovereignty, and following international law. The Russia-Ukraine War has caused great suffering, affected the global economy, and created risks to world peace. Peru supports international efforts to stop the conflict, help those affected, and hold those responsible accountable.

The conflict started in 2014 when Russia took over Crimea, an action criticized worldwide. It grew into a full-scale war in 2022 with Russia's invasion of Ukraine. This war has caused many deaths, forced millions to flee, and broken international rules, while also causing food and energy prices to rise globally.

Peru strongly opposes Russia's actions and supports Ukraine's independence and borders. Peru has backed UN resolutions asking for peace and calling Russia to stop its aggression. Peru also supports helping refugees, providing humanitarian aid, and ensuring justice for crimes committed during the war.

1. Support Peace Talks: Work with the UN to encourage dialogue between the two sides.
2. Provide Aid: Strengthen efforts to help displaced people and those in need.
3. Ensure Accountability: Investigate and punish those responsible for war crimes.
4. Reduce Global Impacts: Cooperate internationally to address rising food and energy prices.

Peru calls for an end to the war and a return to peace through diplomacy. Peru will continue working with the international community to help victims, promote justice, and build a stable and fair world.
