

Conference : TOBB ETU TRAINING CONFERENCE 2025

Committee : UN WOMEN

Country : The Republic of South Africa

Agenda Item : Addressing Femicide Through Legislative Action
and International Cooperation

Since from the beginning, there was a lack of rights and equality from all around the world.

We killed each other's for our own benefits. And still there's no ending to one topic.

The women's rights and their freedoms. We think this is disgusting and should be more should be emphasized about this topic. As South Africa; we think that all countries should be strengthening their women life standards like, give more job opportunity.

More secure areas, more police forces to keep the streets safe, place cameras for inhibited areas, should join and support the Istanbul Convention because its the heart of the oppose the femicides. Support the families about financial problems, education problems and health problems. And we think that every county has to be in touch with each other because we can only be strong by lifting each other up.

And last but not least, courts needs to be more fair by putting more fair judges so no women can be injustice and be brave for looking for their justices. And we think we need each other for pass this world for other generations
