

COMMITTEE: UNICEF

ISSUE: Protecting Children from Bullying and Violence

Country: Algeria

Algeria is the tenth most crowded country of Africa and the most 33th crowded country in the world. Public language is Arabic. The peoples are talking mostly Arabic. The people are most of Arabic people.

Algeria is a country located on the Mediterranean coast. It is governed by semi presidential system. From the year 2025 fossil oil and natural gas is the most important thing for the economy. Algeria had one of the largest armies in the world. UNICEF supports the training of workers in child protection.. Algeria supports the social development of children and young people. The social and culturel activities are important for the the people. They aim to integrate children into society. In recent years Algeria has invested health sector. For devolpment.This reason affects positively and dicreases children and women deaths.

Algeria is not an advanced and safe country, it should give importance to the education of women. Disabled people shouldn't be forgotten and they should also be supported and educated. Donations are important and they must be remembered all time.
