

POSITION PAPER

Conference : TEDUTRAIN'23

Committee : SPECPOL

Topic : Israeli-Palestinian Conflict: The Military Occupation of the Gaza Strip and Its Implications

Country : United States of America

Delegate : Denys Bastan, MERMUN Delegation

As the United States of America, we wish to bring world peace and democracy everywhere on the earth. Our mission to bring these key terms to the disadvantaged countries, can only be succeeded with finding a cure for the ongoing problems in the middle east. Hence, the United States has been deeply involved in Israeli-Palestinian conflict. Our country's concerns haven't only been in consideration since the attacks on October 7th.

The ties between the United States and the middle eastern entities Israel and Palestine were established decades ago. The United States was the first independent country to recognize the independence of the State of Israel with President Truman's proclamation. Ever since then the strategic partnership between the United States and Israel have been moving forward with lots of diplomatic connections. Since Israel has gained its independence, it has become, and remains, America's most reliable partner in the middle east. On the other hand the United States of America recognizes Palestine National Authority as the legitimate representative entity for the Palestinian nation based on the Oslo Accords.

The United States of America underlines the importance of peace at the conflict zones as the innocent people keep losing their lives. However we also recognize that the terrorist entities are the ones who are flaming this conflict each time. HAMAS, being an islamist separatist terrorist group, is the main reason why the conflict is still going on. In order to solve this issue from its roots the world should unite to eliminate all the terrorist groups in Gaza.

The circumstances of a terrorist group controlling the Gaza strip, create a furious violence towards both Palestinian and Israeli people. People cannot access their main needs and the casualties increase each day of the conflict, even resulting in war crimes. The bombings of Al-Ahli Arab Hospital in Gaza and the UNRWA school are the biggest examples of these unethical war crimes.

We, as the United States of America, support and recommend the two state solution to eliminate the terrorist groups and create a safer environment between the both nations. And we have shown our position by initiating both Oslo Accords and Abraham Accords, in order to provide peace in the territory. World peace and democracy is the only solution to this matter. Since both Israelis and Palestinians want peace, the State of Israel should be supported to destroy the militia power of the HAMAS and other terrorist entities and rebuild two nations in the particular area.
