Topic:

- Conflict between Israel and Palestine

"The Argentine Republic expresses its deep concern over the dramatic worsening of the situation in Israel and Palestine, the disproportionate use of force by Israel security units in the face of protests over possible evictions of Palestinian families from their homes in the Sheikh Jarrah neighborhoods and Silwan. Argentina is against the war and only support the peace.

Argentina has recognised Palestine as a "free and independent state," just days after neighbouring Brazil announced that it would "legitimate aspiration of the Palestinian people for a secure, united, democratic and economically viable state co-existing peacefully with Israel. Argentina reasserts its

support to the inalienable right of the Palestinian people to self-determination and to become an independent and viable State recognized by all nations; as well as the right of the State of Israel to live in peace with its neighbors within secure and internationally recognized borders.

Argentina always wanted peace and defend the peace. Our solution proposal is to make a constitution that will make both sides happy so that the people will not be harmed. A victory in which people die should not be a success and a solution must be found as soon as possible to end this conflict. I hope our suggestion will help you find a solution.
